VIETNAMESE

LEGEND

| | |
|---------------|-----------------|
| ● Very High | (Over 19.56%) |
| ● High | (9.26 - 19.56%) |
| ● Medium-High | (5.4 - 9.26%) |
| ● Medium | (3.54 - 5.4%) |
| ● Low-Medium | (Under 3.54%) |
| ● Not Present | |

NB – Red areas = > 19.5% Vietnamese

Percentages in the legend are calculated on an Australia-wide basis to facilitate comparison of specific cultural groups in different places.

Chinese and Vietnamese communities are concentrated in a relatively small number of areas in Australia's major cities.

Food retailing and restaurant cuisines associated with different groups are similarly located.
